Kernow Connect Summer Programme of Activities

A summer of fun and friends 2021 for
young people aged 11 - 18 years

We are delighted to be able to offer summer activities! This summer we will focus on reconnecting children and young people with their friends by offering opportunities to get together in a safe a relaxed way. We are offering fun activities that focus on getting together, having fun and supporting our wellbeing.

A few things to note and how to book –

if possible, please email your booking to kernow.connect@actionforchildren.org.uk.

As places are limited, bookings will be taken on a first come first served.

We also have a limited number of places for those who qualify for free school meals. To book your place use the link provided by Time 2 Move and enter your code.

You can only book onto an activity in your area.

You'll receive an email after the closing date to confirm if you have been allocated a place on your chosen activity. Full details of the activity will also be provided

There will be 2 weeks for you to make your booking - please do this by **Wednesday, 21st July.**

Due to Coronavirus measures, places are limited for all of our activities. We will try to accommodate as many families as possible but cannot guarantee places. If you have any questions please do not hesitate to contact us.

We have worked very hard to make our activities as safe as possible, but we need your help too....

- We will send you a list of our assumptions that you will need to sign - we are assuming that children and families have not felt ill or had a temperature leading up to the activity
- If a child has been poorly or has a cold, unfortunately they cannot attend
- A staggered drop off and pick up time to limit contact between families
- 1 parent will be asked to sign your child in
- Please can adults wear a face covering, to keep everyone safe
- We will be taking children's temperatures on arrival
- Young people are welcome to wear a face covering
- Where possible, young people to maintain social distancing
